WORK EXPERIENCE

SDE

Applied Research Works India Pvt. Ltd.-COZEVA

09/2021 - Present.

Kolkata

Cozeva is the operating system for value-based healthcare and powers the transition toward a value-based ecosystem for quality, risk, and cost performance.

Achievements/Tasks

- Implemented real-time **push notifications** using **Websockets**, enabling automatic updates and alerts without manual refreshes.
- Developed **Browser Extension** in collaboration with a developer. Leveraged **React.js, Node.js, Express.js, MySQL**, and various libraries for a seamless frontend and backend integration, enhancing user experience.
- Enhanced Cozeva website's accessibility to meet WCAG guidelines by modifying the UI with **React, JS, jQuery, HTML**, and **CSS**. Ensured compliance through validation with the WAVE extension tool.
- Designed and implemented a **file upload system** capable of handling large files by breaking them into chunks for parallel transmission to the server. Developed server-side logic to collect and reassemble these chunks, ultimately saving the complete file to a specified location.
- **Data Scrapping using node js** :- Wrote a script to download machine readable files from different insurance provider and hospital websites using headless browser **puppeteer** and stream the download of large files(50gb+) using **GOT** library

Software Engineer Intern

The Sparks Foundation

08/2020 - 09/2020

Achievements/Tasks

- Contributed to an **NLP** project by developing a machine learning model tasked with rating determination based on user-provided reviews.
